

IN THE DRAWINGS

The attached replacement sheets of drawings are submitted for consistency with amendments to the drawings in the parent case. The replacement sheets include corrections to reference characters in the originally filed drawings in the parent case to avoid double use of reference characters and omitted reference characters. The replacement sheets are submitted to be consistent with the amendments to the specification. No new matter has been added.

Remarks

The present amendment is submitted concurrently with the filing of a continuation application of copending U.S. Application Serial No. 09/892,007 filed June 26, 2001 (referred to herein as the parent case).

The amendment is submitted to add a cross reference to the parent case, and to correct numbering errors (i.e., double use of reference characters) and numbering omissions in the specification as originally filed in the parent case. It is respectfully submitted that the amendments to the specification are consistent with amendments made in the parent case and that no new matter has been added.

Replacement drawing sheets for Figures 1-14 are also submitted which reflect drawing corrections made in the parent case. The replacement drawing sheets are submitted to secure substantial correspondence to the amended specification as set forth above. No new matter has been introduced into the replacement drawing sheets.

Please enter the foregoing preliminary amendment prior to examination of the present application. Favorable action is respectfully solicited.

Respectfully Submitted,

Bruce T. Atkins
